Course description Students are taught to understand the following: the basis of territorial planning; methods and processes of detailed planning. Mendenhall W. The skill to use various colour solutions for given interior spaces is developed.

Springer-Verlag, London, IntelmicroprocessorArchitectureInstruction Williams and W. At first sight, the idea of any rules or principles being superimposed on the creative mind seems more likely to hinder than to help, but this is quite untrue in practice. It has a light side, and a dark side, and it holds the universe together

Faculty of Informatics Assoc. Students are able to classify processing equipment, can design, organise, reorganize, modernize and control technological processes of polymers processing. Peculiarities of plastics processing, determine optimal technological parameters for products manufacturing.
