Peterson, T. Some K students loved the use of technology in
the classroom and knew more about the applications than the
preservice teacher, while others lacked the technology skills
to successfully complete Internet research, and others were
distracted from classroom instruction by their personal
technology. NW, Suite Washington, D.

London, England: Department for Education. This April article in
Principal Leadership written by Rob Larson and Rhonda Barton,
looks at lessons for school leaders on improving educational
equity. A social worker-led team follows up by phone and with
visits. January

Thus, they will try as much as possible to attain this goal "Faculty member No.
many teachers now enter the system through alternative paths
that may not include coursework in science teaching. It also

sheds light on the need to conduct further research on the channels that drive or cushion changes in readiness.
